DETAILED ACTION

Specification

The claims as amended and entered on 12/9/2003 (amendment F, paper number 53) are objected to under 35 U.S.C. 132 because it introduces new matter into the claims/disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the feature mentioned as "coil of a coil" as disclosed in U.S. Pat. No. 4,994,069 reference, which reference is mentioned in the background section of the specification of the instant invention, page 1, lines 9-12. U.S. Pat. No. 4,994,069 reference was mentioned in the specification of this instant invention is considered as a general reference about other well known devices in the art and not as a substitute for the disclosure of the instant invention. The Applicants have not provided any support in the original specification of the instant invention for the feature "coil of a coil".

The "Declaration" pursuant to 37 CFR 1.132 has been considered, but the "Declaration" is not considered as a substitute for the disclosure of the feature "coil of a coil" in the specification of the instant invention.

Applicant is required to further point out any disclosure including any drawing in the specification to support for the feature "coil of a coil" or to cancel the new matter in the reply to this Office Action.

Art Unit: 3731

When the feature "coil in a coil" has been justified as a subject matter clearly supported in the specification, the action on the merit of the claims will follow.
